Product Information

Picture

Screen size	29" (72 cm)
Picture tube	Black Matrix Flat Square CRT
Viewing area	68 cm
Smart Picture modes	Soft, Natural, Rich, Personal

Contrast Plus
Skin Tone Correction
Sharpness Control
Colour Temperature Control

Sound

Sound output	2 x 5 W RMS
Loudspeakers	Full Range Speaker
Smart Sound modes	Theatre, Music, Voice, Personal

Incredible Stereo
NICAM or 2CS Stereo
Auto Volume Leveller (AVL)

Reception

Tuning system	VST tuning
Tuner	UV, S and Hyperband
Channel selection	100 presets
TV systems	See table
Video playback	NTSC 3.58 / 4.43, PAL 60

Teletext (29PT4673 only)

Reception standards	FLOF

10 page memory
Fastext

Connectors

Front	Stereo headphone out (3.5 mm)
Rear	Stereo Audio / Video input x 2
	Stereo Audio / Video output (monitor out)

Operation

Remote control	RC0772/01
Number of remote control buttons	29 buttons

Multi language on-screen display
Smart Surf
Game mode
Child Lock
Sleep Timer

Measurements

Mains	100 - 250V, 50/60 Hz
Power consumption	80 W (Normal Operation) 10 W (Standby)
Net weight	35 kg
Gross weight	39 kg
Set dimension	759 x 510 x 579 (W x D x H mm)
Box dimension	847 x 631 x 723 (W x D x H mm)
Container loading (per 40 ft, loose)	156 sets

Product Highlights

Contrast Plus greatly enhances the degree of black to white contrast, thus optimizing the total contrast for improved picture clarity.

Skin Tone Correction automatically adjusts the colour hues to match the correct hue of skin tones. This results in skin tones which are free of hue error and unnatural colours.

Smart Picture provides the option of selecting one of four preset positions (Soft, Natural, Rich, Personal) to enhance enjoyment of video games, sports and movies. Select the desired option and all important picture elements are instantly adjusted to optimize viewing pleasure.

Smart Sound provides the option of selecting one of four preset positions (Theatre, Music, Voice, Personal) to optimize each individual sound preference when viewing different programmes or sources.

Smart Surf eliminates the fustration of trying to remember what channels had programs of interest while channel surfing. After establishing the Smart Surf configuration with the user-friendly menu, store up to eight channels in a Smart Surf ring memory and then surf the loop at a touch of a button.

Incredible Stereo is a pseudo-acoustic management of the audio signal which produces a dramatic expansion of the wall-of-sound engulfing the listener and heightening the overall entertainment experience.

Auto Volume Leveller (AVL) suppresses unexpected volume increases in the sound modulation while viewing commercials or when switching broadcast channels.

Child Lock is an electronic lock which can be used to block out particular broadcast channel(s) by entering a unique number code. This feature is useful in preventing young children from accessing undesired channel(s).
